

Dear Parents

Following a selection process which the school is obliged to follow every few years, we are pleased to announce that we will be entering into a contract with the new catering provider, Caterlink.

The recent selection process involved staff, governors and students so that customers involved each day were represented in tasting the food and making their views known. On the day we were unable to invite parents into the process, but we are aware that many parents have views on food quality, nutrition and the way in which the food service takes place each day.

Whilst our annual parent survey is once again very positive, the main area of concern is around healthy lifestyles and this clearly links to the food available to students during the school day.

I would therefore like to invite parents to attend the Parents Forum meeting on Monday 15 May between 6:30 and 7:30pm to meet the caterers, share suggestions about improvements to the service and, of course, taste some of the new menus. As there are **only 40 cost free places** for this event to focus on parents' views, we ask that, on this occasion, students and younger siblings do not attend.

To be sure of a ticket and an opportunity to attend the 'Meet the new caterers' event, please return the slip below to the office in reception marked 'Meet the new caterers event 15 May'

Yours sincerely

Barry Burningham  
Deputy Headteacher
