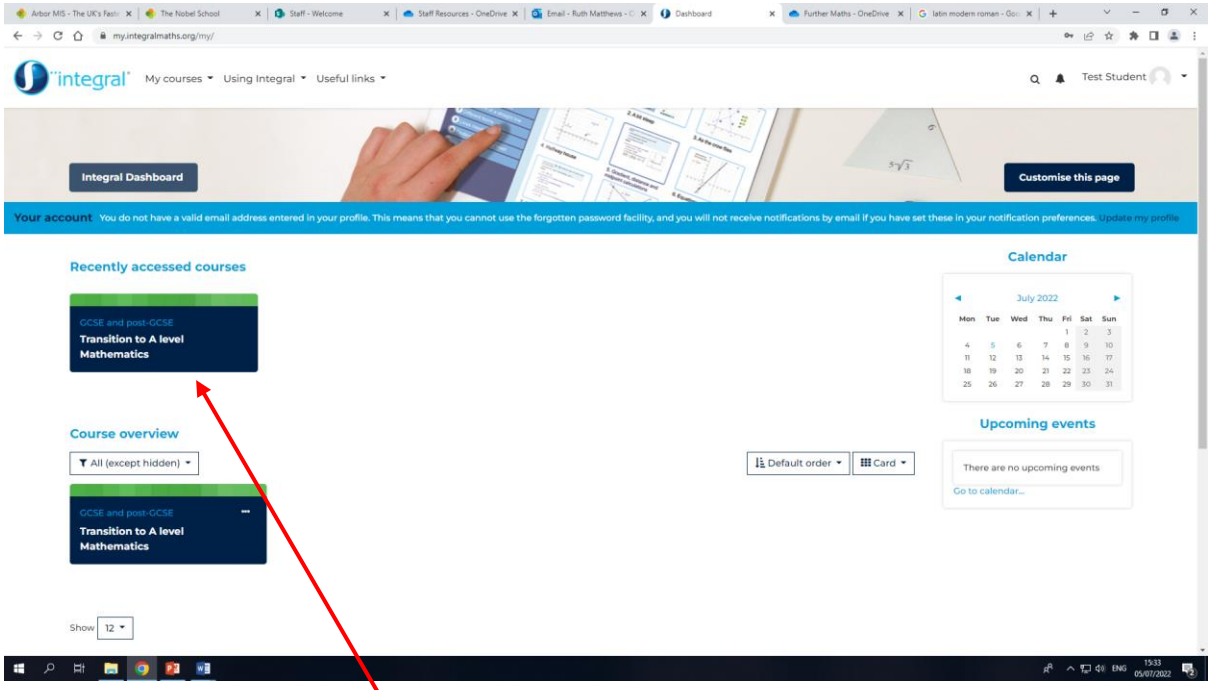
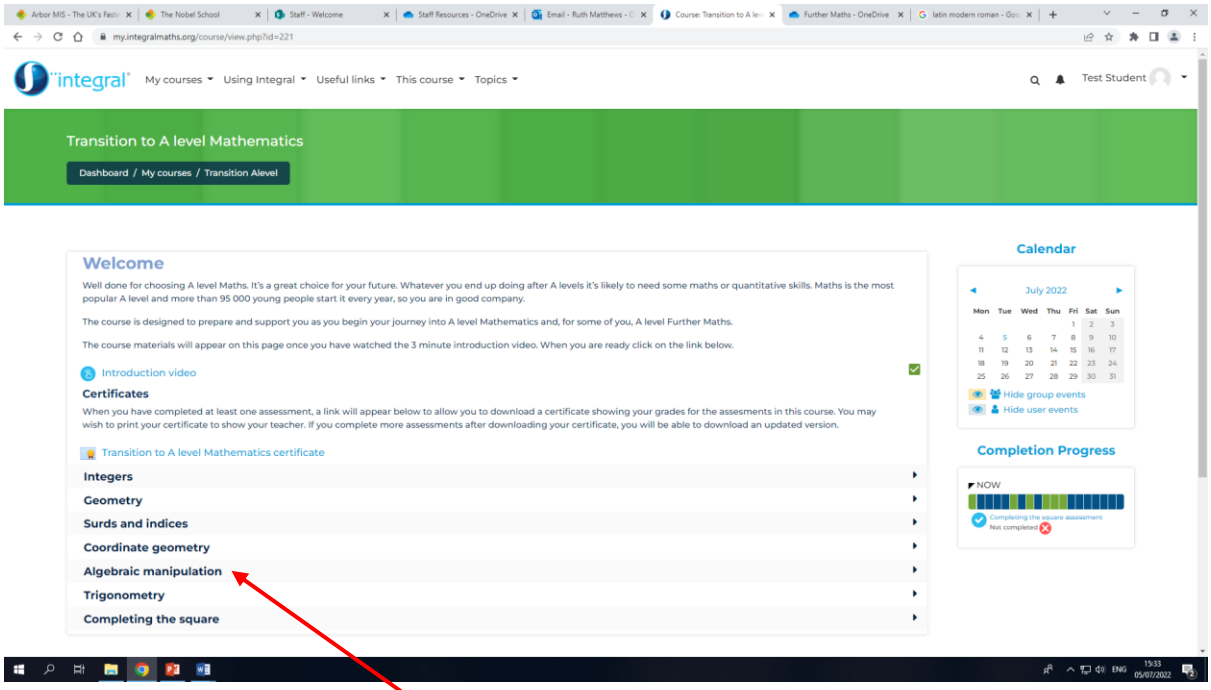
A level Summer Tasks: Mathematics and Further Mathematics

This year, our summer tasks have moved online. To complete the summer task, you will need a login. Those of you who attended the induction session have been emailed logins. If you did not attend a maths induction session, and wish to pursue A level maths, please email ruth.matthews@nobel.herts.sch.uk and jo.blight@nobel.herts.sch.uk so that we can make you an account.

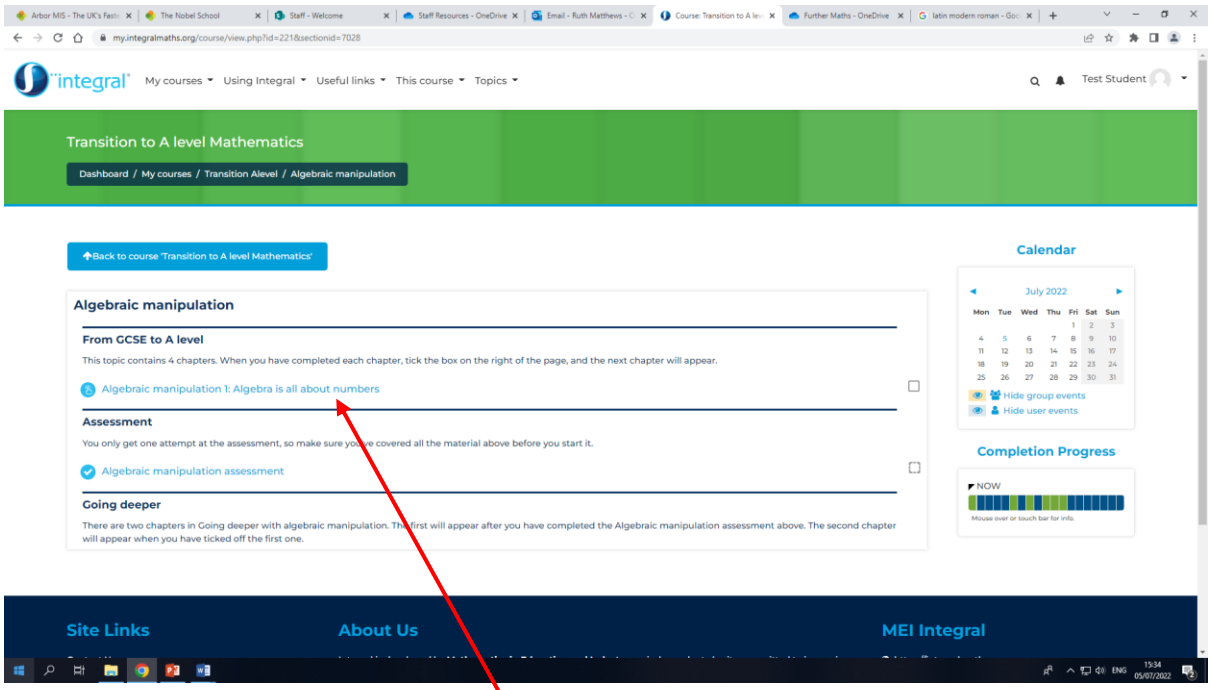
- Go to https://my.integralmaths.org/login/ and log in with the details emailed to you.



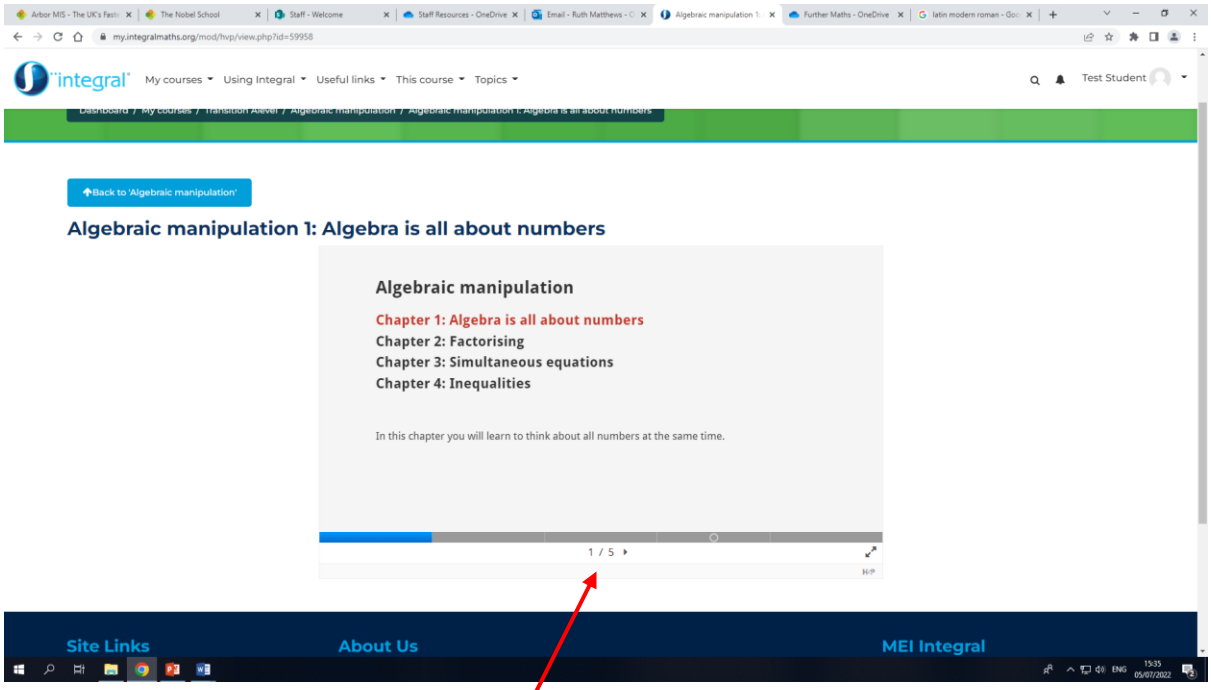
- Click Transition to A level Mathematics



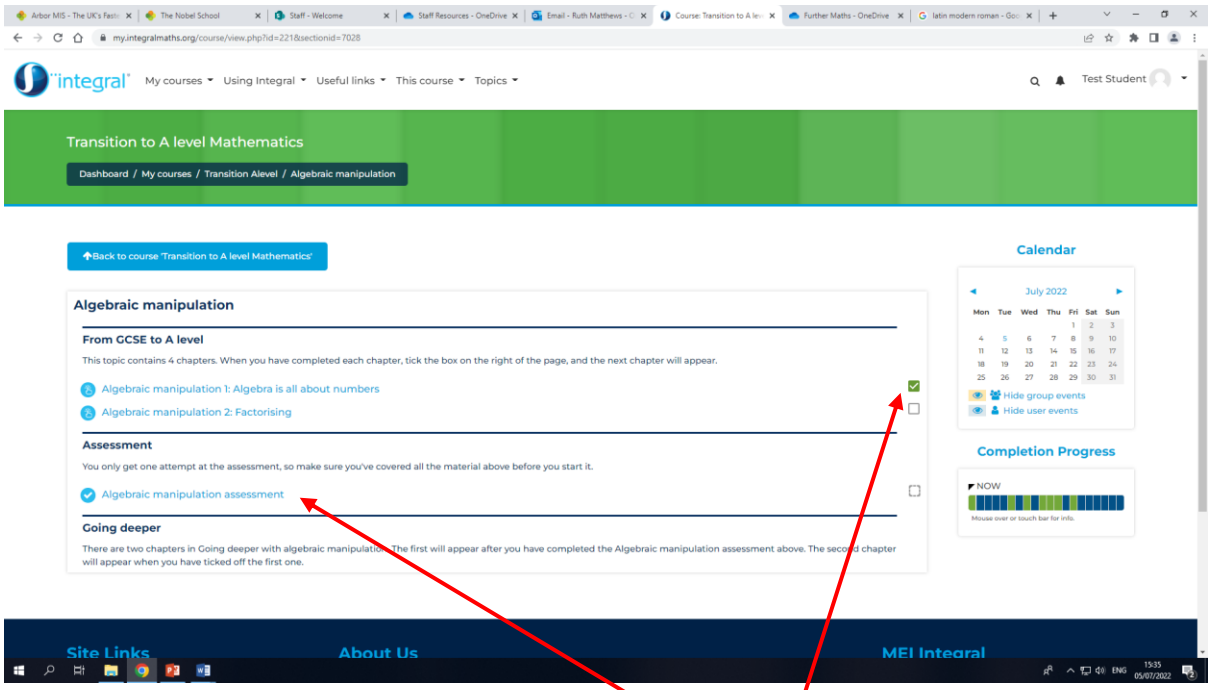
- Here you will see a list of topics. By clicking on each topic, you will be able to access the lessons and assessments.



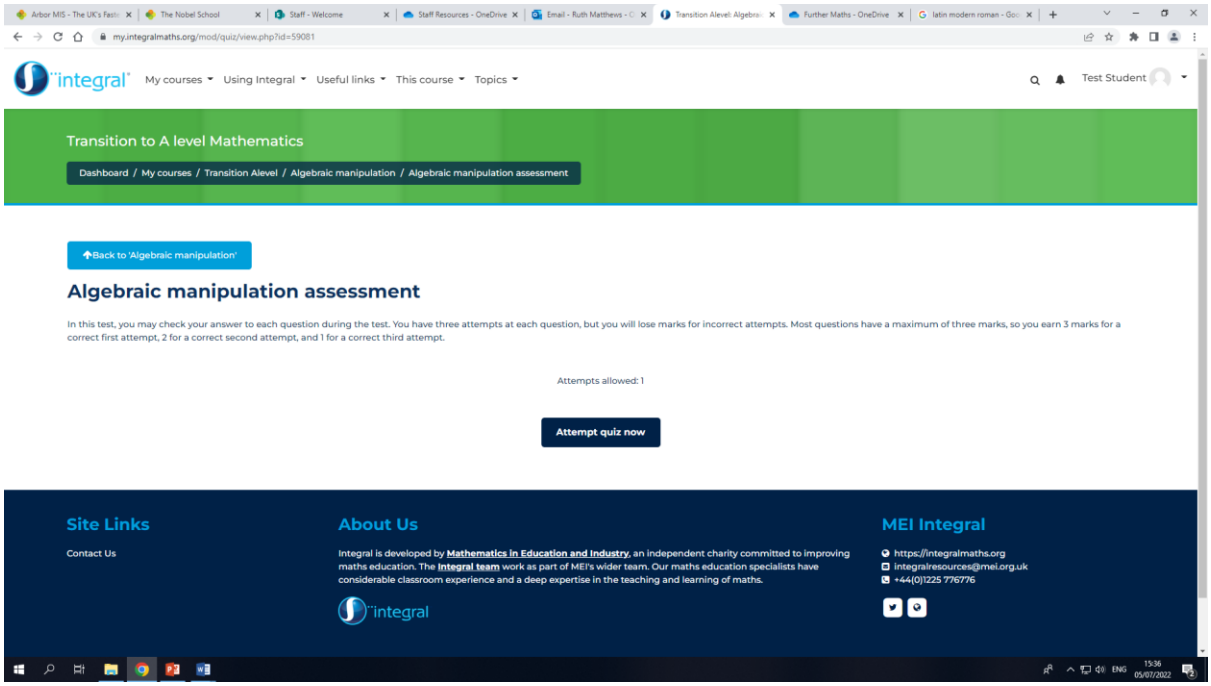
- To access the lessons, click the links in "From GCSE to A level"



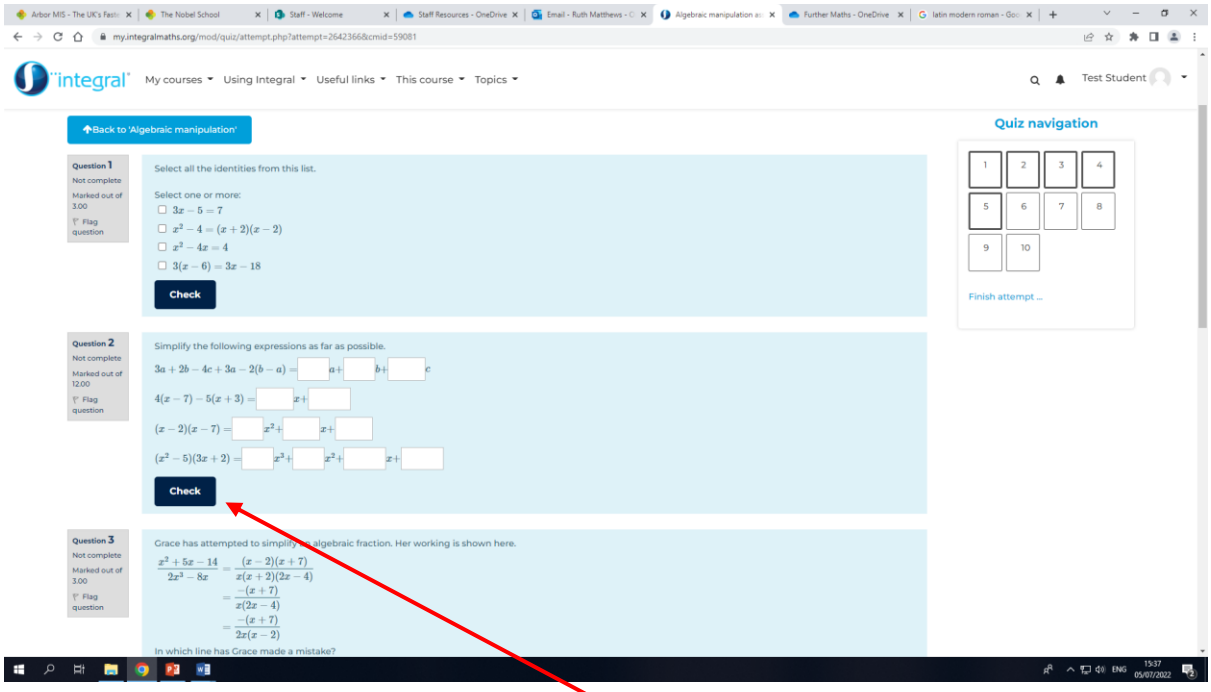
- Each lesson contains videos, practice questions and examples. Click "back" to access the main menu.



- When you complete a lesson, click the empty box to tick it off. This will reveal the next lesson. Once you have completed the lessons, click on the assessment.



- You will only have one attempt at each assessment, so make sure you are ready!



- Click "check" after each answer to check your solutions, then "Finish attempt" at the bottom of the page to submit your answers.
- When you have submitted your assessment, you will be able to review your answers and see your grade for that module.
- **It is essential that you complete all lessons and all assessments (one for each module) in order to begin the course in September**
